Ref. No. : 2830/ASCL/2022-23

Date: 24 May 2022

CERTIFICATE

This is to certify that, on behalf of the Indian Road Safety Campaign (IRSC), the following Interns have submitted a report on Road Safety Guidelines Implementation at various locations of Aligarh to Aligarh Smart City Ltd:

1. Siddharth Chauhan
2. Aryan Varshney
3. Kaushal Kumar Singh

The suggestions are commendable and shall be assigned to the fellow bodies (local contractors, other associated authorities etc). The bodies shall modify these suggestions in accordance with the standard IRC guidelines, if needed and shall try to implement the same in the near future. The recommendation and suggestions given by the said body will be incorporated in design of Roads for public safety and best service. Aligarh Smart City Ltd has tendered out to different executing agencies. These Executing Agencies were asked to consider these safety parameters in design approach.

The approval to the following solutions is based on the reports presented by the interns. We appreciate them for their efforts towards the road safety.

1. Trapezoidal Hump as a Traffic calming device.
2. Innovative solutions like Hand Graffiti on road and 3D Pedestrian Crossing.
3. Traffic Signs and Markings
 - Speed Limit sign and marking based on prescribed limit
 - Stop sign at road-side coming from hospital
 - Stop Line marking at required places
 - No Stopping No Standing sign at intersection
 - School Ahead sign before school.
 - Slow mark at both sides of intersection before hump.
 - Yellow box marking at intersection.
 - School-Kept-Clear marking in front of school.
4. Engaging Students around roads with Traffic cops in once-a-month program to create awareness.
5. Surveillance system
6. Covering the sewer
7. Foot over bridge
